

EXPONA[®]

COMMERCIAL

LUXURY VINYL TILES

We enter a room and we form opinions immediately. The furnishings, the decor, the colours, the feeling that a room generates. We understand what the room is for, and we understand our role within it. All these things are instinctive reactions to our environment, responses to stimuli, but they are all based on foundations of personal taste. They are expressions of our aspirations. How we respond to a room starts here, and a room cannot exist without a floor.

To create the best commercial spaces requires flooring solutions that are tailor-made to suit your vision. The Expona Commercial range was created to realise this vision with reproductions of the widest range of natural and man-made materials combined with innovative modern finishes. Expona is not just a byword for flooring expertise but a symbol of quality, representing the pinnacle of modern manufacturing techniques coupled with cutting edge trends.

Expona floors are not just solutions, they are ideas upon which concepts can be built, and the finest commercial interior spaces can be created.

THE COLLECTIONS

The following spreads summarise the extensive Expona Commercial collection, featuring accurate product scans as well as detailing all tile and plank sizes. Designs that feature pattern variations or bevelled edges are highlighted for easy identification, and the whole collection has been grouped by plank or tile size, so depending on the scale of the installation a suitable tile can be quickly selected.

DESIGN FLOORS

The eye is continually seeking something new, innovative and unique, that both inspires and engages. All of the designs within the Expona Commercial collection are exclusive to Polyflor and are beautiful as stand-alone installations. However we appreciate that individuality is important too, and the desire for a distinct or bespoke finish that is truly unique. When an individual installation pattern is required, tailored to your own vision or corporate style, we can help you realise this through our range of inlay strips, out-of-the-box design floors, and waterjet design floor service for bespoke motifs.

INTEGRATING COLOURS

When visualising a new flooring layout for any large scale installation, the wealth of design floors available can take on varying levels of intricacy. In some interiors the simplest solution can be the most effective. By simply combining different flooring tiles together, either with complementing or contrasting patterns and colours, a stunning result can be achieved with little effort.

OUT OF THE BOX SOLUTIONS

Producing exclusively beautiful flooring designs was at the heart of the Expona creative development process, and with this came an appreciation for individuality and creating a corporate or brand identity through the use of a floorcovering. This understanding has led to a suite of out-of-the-box design floors being included in the Expona Commercial range that are straightforward to install yet deliver on style and excellence.

4111 Golden Chevron Parquet

4112 Tanned Chevron Parquet

203.2 x 1219.2mm

Pack includes both left and right pattern, to make a continuous chevron pattern.

Each pack contains 12 tiles of 152.4 x 609.6mm & 304.8 x 304.8mm, and 6 tiles of 304.8 x 609.6mm.

DECORATIVE DESIGN FLOORS

The flexibility of Luxury Vinyl Tiles to be laid individually allows us to discover a wide assortment of flooring patterns. With little or no cutting required, beautiful flooring installations such as herringbone and tramline patterns can create eye-catching interiors, guide users through the space or create multi-purpose zones.

To add further highlights to any flooring installation, a selection of Expona inlay strips can be introduced. Whether you choose a complementary grouting strip around each stone tile for an authentic finish, or surround a group of planks with a contrasting feature strip to create a large scale tile effect, the result can be as subtle or striking as you wish.

SPECIALTY DESIGN FLOORS

From the first stages of developing your interior space, we can help you realise your vision with a bespoke design floor installation. We have worked closely with many architects and designers over the years to realise eye-catching floorcoverings for hundreds of buildings, across all commercial sectors. From conception to completion, we can provide visuals, advise on colour combinations and product selection to mirror the attitude and lifestyle of an overall scheme. There's virtually no limit to the shapes, patterns or imagery you can create with the help of Polyflor's design service, realised through the precision and flexibility of waterjet cutting technology to meet your unique requirements.

INLAY STRIPS

Developed to add fine detailing to an overall floorcovering, these inlay strips can be installed between tiles and planks to emphasise or accentuate the natural floor design. Whether selecting a Grouting or Marquetry Strip, designed with natural pattern variation within each one for added authenticity, or a bolder Feature Strip for a graphic look, each strip can be used to create zones or highlight features.

Grouting Strips

5 x 914mm

2537 (2.5mm) / 0037 (2.0mm) Beige

2536 (2.5mm) / 0036 (2.0mm) Grey

2538 (2.5mm) Black

Marquetry Strips

5 x 914mm

2551 (2.5mm) Light Oak

2552 (2.5mm) Mid Oak

2553 (2.5mm) Walnut

Feature Strips

5 x 1000mm

5100 (2.5mm) Silver

5103 (2.5mm) Black

5110 (2.5mm) Brown

For bevelled planks and tiles, we recommend using 2.0mm gauge inlay strips.

STRUCTURE

EXPONA tiles and planks consist of individual layers which are thermally pressed and feature a polyurethane reinforcement (PUR). EXPONA combines a vast range of authentic wood and stone designs alongside creative, innovative and abstract effects with the excellent easy-care characteristics of PVC flooring.

Reinforced Polyurethane

The PUR treatment supports a simple cleaning regime.

Wear layer

The embossed, 0.55mm, high-density and transparent layer is hard wearing and protects the design.

Decoration layer

An innovative printing technique makes the high-clarity design film a true representation of natural materials.

Stabilisation layer

Improved dimensional stability is achieved by minimising the effect of surrounding physical properties (e.g. temperature fluctuations).

Load-bearing layer

The basis for the long service life and high performance of EXPONA.

EMBOSSING

Expona Commercial offers exceptional quality and a range of leading wood and stone designs as a result of extensive research and innovative product development. The combination of high-clarity design film and faithful surface textures make Expona the supreme flooring choice. The surface embossing developed for the Expona Commercial collection has been designed to precisely replicate the appearance and feel of real wood timbers, natural stone structures and abstract floor patterns, and then paired with each corresponding design for a premium finish.

ALIGNED EMBOSSING

A selection of Expona Commercial designs within this collection feature an aligned surface emboss, that marries with the decorative layer.

This ensures an authentic and accurate representation of the natural material depicted, as the embossing creates unique textures and patterns specific to that design.

Environmental product declaration	EN 15804		DGNB Navigator www.dgnb-navigator.de

* Resistant depending on concentration and time of exposure, in case of increased impact of oils, grease, acids, alkalis and other aggressive chemicals please contact us.
 ** Heavy rolling loads to be avoided
 *** Averaged test value from current production

ENVIRONMENT

As a leading global manufacturer of high quality, high performance floorcoverings, Polyflor have demonstrated a high level of commitment to minimising the impact our products have on the environment, and endeavour to meet these requirements with a focus on sustainability and a healthy indoor climate.

All Expona flooring has the prescribed CE mark, as a European declaration of performance and is regularly tested to ensure the exceptional standards are continually met by external third parties including Eurofins, one of Europe's leading service providers in the field of analysis. Through these annual external inspections, Eurofins have awarded Expona Commercial the Indoor Air Comfort Gold rating. This certificate is awarded to products with VOC emissions below any globally determined VOC limits. Expona Commercial is certified with FloorScore, BRE and LEED credits. All Expona flooring is also 100% recyclable and contains average 40% recycled material, which is integrated into new flooring production insofar as is possible.

SUSTAINABILITY

As a member of ERFMI, the European Resilient Flooring Manufacturer's Institute, Polyflor, a company of James Halstead PLC, supports the ideal of sustainable construction and has prepared an Environmental Product Declaration (EPD) for Expona Commercial. Expona floorcoverings have been assessed under the EN 15804 programme of the Institute for Construction and Environment (IBU) for the environmental assessment of buildings.

ORDER SAMPLES

Polyflor provide a complementary product sample service so you can sample your choice of flooring before you make your final selection, and ensure you find the exact floorcovering you are looking for. To order samples, please visit the Polyflor website, call our customer service department or speak with your local Polyflor representative.

VISIT US ONLINE

Visit polyflor.com.au or polyflor.co.nz for detailed product and technical information on all flooring collections within the Polyflor portfolio. Our website provides an easy to follow navigation system to help you find exactly what you are looking for, free downloads, and free product and literature samples which can be easily ordered through the website.

CONTACT US

For general information on your specific project, either speak with your local Polyflor representative or contact us directly.
